

New Mexico Small Business Assistance (NMSBA) Program Call for Proposals 2022 First Call Leveraged Projects

Solving New Mexico's Small Business Challenges

The New Mexico Small Business Assistance (NMSBA) Program is accepting Leveraged Project proposals for calendar year 2022.

The NMSBA program enables small for-profit New Mexico businesses solve critical challenges by accessing Los Alamos and Sandia national laboratories' unique expertise and capabilities at no cost to the businesses. Individual businesses in Bernalillo and Santa Fe counties are eligible for up to \$20K of technical assistance. Businesses in all other NM counties may receive \$40K of assistance. Assistance is provided in the form of laboratory staff time and their use of specialized equipment. Assistance requested must not be available in the private sector at a reasonable cost. The program does not provide cash or equipment to small businesses.

Leveraged NMBSA projects allow multiple New Mexico small businesses that share technical challenges to request assistance collectively. Projects can be funded up to the sum of the assistance for which each participating company is eligible, with total funding from \$40K-\$120K. Projects must be complete by the end of calendar year 2022.

Proposals Due:	September 14, 2021 (late submissions will not be accepted)
Submissions:	Submit proposals via email SNL Proposals: Sharon Evans, sfevans@sandia.gov LANL Proposals: Julia Wise, jlwise@lanl.gov
Initial proposal decision:	September 16, 2021 Successful proposals will move forward to the next phase. Additional information and a presentation are required.
Leveraged Project Presentations	October 27 & October 28, 2021
Final project decision:	November 3, 2021

Proposals must include the following information:

- 1. The title of the project
- 2. Name and contact information for the laboratory technical staff member who will lead the project
- 3. A description of:
 - the problem faced by the small businesses (250 word limit);
 - how this project will address the problem (250 word limit);
 - the laboratory capability utilized that is not available in the private sector at reasonable cost (100 word limit);
 - the anticipated economic impact of the project on the participating small businesses (250 word limit)
 Economic impact can include job creation or retention, increasing revenue, decreasing operating costs, cost avoidance, potential for funding and financing, investment in NM goods and services, etc.

4. The category that best describes the technical assistance work that will be done on the project (choose one from the following list):

(1) Astronomy & Physics

(2) Advanced Modeling & Simulation

(3) Biological and Medical

(4) Business Development

(5) Chemistry and Biochemistry

(6) Computational and Computer Science

(7) Earth & Environmental Sciences

(8) Energy

(9) Engineering

(10) Manufacturing

(11) Materials Science

(12) Micro- & Nano-Technology

5. Name, address (including county), and contact information for <u>at least two</u> New Mexico small businesses requesting the assistance.

Note: All small businesses must be for-profit, located and registered to do business in New Mexico, and meet the U.S. Small Business Administration's Small Business Size Standards (https://www.sba.gov/document/support--table-size-standards).

6. For each requesting company, the industry category that best describes the main activities of the business (select one industry for each company from the following list):

(1) Manufacturing

(2) Professional, Scientific, and Technical Services

(3) Agriculture and Natural Resources

(4) Retail & Wholesale

(5) Media & Hospitality

(6) Oil & Gas, Utilities and Mining

(7) Educational and Health Services

(8) Real Estate, Finance, Insurance and

Management Services

(9) Other Services

A limited number of proposals will be selected to move forward. If the proposal is selected to continue, additional information and a presentation will be required. The additional information will be due October 20, 2021, and the presentations will be October 27 or October 28, 2021. The NMSBA Program Advisory Council will evaluate all presentations. Companies selected for assistance will be notified by November 3, 2021.
