SOLVE

TECHNICAL CHALLENGES

GAIN

KNOWLEDGE FROM LABORATORY EXPERTS

NMSBA Leveraged Projects allow multiple small businesses that share technical challenges to request assistance collectively for a larger project. Leveraged projects should focus on helping NM small businesses solve a specific technical challenge and must be completed within one year. Funding is competitive and ranges from \$40,000 - \$120,000 per project. Projects that are well defined, achievable, and relevant to the stated problem faced by the businesses stand a greater chance of being funded. Apply online or contact a project manager for more information.

NMSBA is the best way to go for small businesses that have complex technical problems. Without such support, many of these problems just don't get fixed

Heppolt Wind, LLC

ELIGIBILITY

- Are you a for-profit small business located in New Mexico?
- Do you pay or file gross receipts taxes to the state of New Mexico?
- The assistance provided must not be available through private industry at a reasonable cost.
